

TOGETHER; STRONGER

2020-1-RO01-KA229-079906

C3 Activity - Turkey "Relating in school"
14.11.2022 - 18.11.2022

Erasmus + Project **"Together, Stronger!"** (2020-RO01- KA229-079906)

Participants: teachers and students from Turkey, Roania, Portugal, Lithuania and North Macedonia

Period: 14.11.2022- 18.11.2022

Venue of activity: ABDULKADİR PERŞEMBE VAKFI İMAM HATİP ORTAOKULU School, Mersin, Turkey

The first day of the mobility was intended to get to know and introduce each member of the project, the area they come from and the school they represent. The students painted shells collected from the shores of the Mediterranean Sea, pine cones, colors specific to the country they belong to, after which they planted, along with the accompanying frames, flowers and saplings specific to the area. The evening ended with a small meeting with the Minister of Education, responsible for the Adana region, Turkey being divided into regions.

The second day started with the making of kites, in the specific colors of the country's flag, after which we visited the Zoo in the city of Tarsus. Team work, enriching communication skills (any type of communication), sharing knowledge, culture, language were based on Montessori Pedagogy.

On the third day, the students flew the kites they made together on the beach in Silifke, after which the sensory education activities continued in the Heaven and Hell Caves tourist attraction.

The fourth day was dedicated to sports activities. We went to a Macera Park playground, where students and teachers went ziplining and walked along dotted routes, overcoming various obstacles. I visited the Mersin Deniz Muzesi Marine Museum, from Mersin, after which the cultural evening aimed to provide a positive feedback related to the activities carried out during this week.

The last day of the project consisted of playing games specific to the participating countries, so that we could then play the sport specific to the Adana region as a team. Movement games were also sensory exploration, with insertions of elements from Montessori pedagogy.

The day ended with the festive moment of awarding certificates of participation in the Erasmus + "Together, Stronger!" Project.

The activities carried out during the five days were based on the principles and methods used in Montessori Pedagogy. Capitalizing on the Montessori pedagogy approach within the Erasmus+ Program "Together, Stronger!" (Together, Stronger) aims to deepen formal, linguistic, communication and intercultural education. The entire international experience consisted of educational activities, engaging games held outdoors, sensory exploration activities, where the methods of Montessori Pedagogy were also a support for the development of adaptation skills to real life.

In conclusion, we all benefited from a unique experience, in which communication surpassed verbal barriers, and the children resonated and harmonized, acquiring new values, such as friendship, empathy, compassion and tolerance.
